Online Rate Sheet: (include screenshot)

COVINGTON, Ga. — Growing concerns about the city of Covington’s deteriorating stormwater infrastructure results in the council approving a utility rate increase. The rate will increase from \$3 per Residential Equivalent Unit (REU) to \$5.25 per REU with an additional \$6 million in financial funding from bonds.

From 2024^^^

How are fees determined?

The user fee is determined based on the total square footage of impervious area and is compared to an Equivalent Residential Unit (ERU). Through a statistical analysis, the Covington ERU value was determined to be 2,600 square feet. Each ERU is assessed a monthly fee of \$3.00. This fee is tied to estimated stormwater program cost and is reevaluated every five years.
