## NEW RATES

### EFFECTIVE MARCH 1, 2021

Water allowance for a minimum bill is 0 to 2,000 gallons. Rates fluctuate for different areas of the county based on how many pump stations the water must go through to get to you. For example, rates in the City Limits of Trenton are less than the rates for residents in the mountain areas. Water for city residents will go through only one pump station where some mountain residents get their water via up to 4 pump stations. Listed below, you will find our current rates. If you do not find the information you need, please contact our office and we will provide it for you.

### SEWER RATES

Sewer rates within the City of Trenton are established by the City of Trenton. The Dade County Water & Sewer Authority (DCWSA) serves solely as the billing agent for these charges. DCWSA does not manage, operate, or maintain the sewer system within city limits. For questions regarding sewer rates, infrastructure, or service issues, please contact the City of Trenton directly.
