Online Rate Sheet: (include screenshot)

8. How are fees determined?

The County follows the national model of measuring impervious surface area on individual properties. The user fee is determined based on the total square footage of impervious area. The 2021 rate is \$2.46 per 100 square feet units. The rate for subsequent years will be reevaluated in the future. The stormwater fee is charged as a line item on the annual property tax bill.
