February 4, 2025

Dear Customer,

The Town of Ochlocknee due to higher cost of energy, fuel, and services will be raising our Utility Rates beginning with the March billing cycle.

The Town has been mandated to build a new Sewer Plant within the next (4) four years this mandate came with no funding. We are reaching out to our elected officials for help and have not found any funding at this time.

The Town will continue to provide the best services possible.
