Nonresidential Fee:	\$5.00 per 3,200 sqft
Multifamily Fee:	\$5.00 per 3,200 sqft
Additional Information: (Include screenshots if easier)	

Online Rate Sheet: (include screenshot)

HOW MUCH WILL CUSTOMERS BE CHARGED PER BILLING UNIT? ^

The adopted stormwater user fee rate is \$5.00 per billing unit per month.

HOW IS MY STORMWATER USER FEE CALCULATED? ^

The stormwater user fee is based on a billing unit of 3,200 square feet of impervious surface. The billing unit of 3,200 square feet is the approximate median of impervious area on a typical single family parcel. Single family residential (SFR) properties will be charged 1.0 billing unit per month, in accordance with the median SFR impervious footprint. Non-single family residential (NSFR) properties will be charged a custom user fee charge based on the total impervious area on the property. For example, if a commercial site had 32,000 square feet of impervious surface, that customer would be charged 10 billing units per month.

32,000 square feet of impervious surface/3,200 square feet = 10 billing units
